

Pelican School Parents and Families,

I am pleased to let you know that students and teacher at Pelican School will use Discovery Education Streaming as a core part of the curricular materials this year.

Discovery Education is the leading provider of high-quality, curriculum-based digital content used by over 35 million students nationwide. Students will have their own accounts and can access resources and assignments from anywhere they have an Internet connection.

Discovery Education Streaming encourages students to engage in rich multimedia content, follow their curiosity, and explore their rapidly changing world. The service allows them to save and organize resources, complete and submit assignments, and create their own digital projects. Additionally:

- Streaming is available anywhere, anytime, and on almost any device (computer, tablet, or phone) as long as there is an Internet connection.
- Teachers can assign work that students can complete and submit online.
- Access will be provided at school, both in the classroom and in the media center, so home access is not a requirement for participation.

We hope that you will be an active partner with your student. When you log in to your student's account, you'll be able to see his or her assignments and progress. You can access Streaming by visiting www.discoveryeducation.com and logging in with your student's information.

Please contact me if you have questions or would like to provide feedback. Thank you for your dedication to the success of your student.

Sincerely,

De'Borah Snoderly
